The Smeal College of Business often hosts visitors, including potential students with their families, alumni, corporate associates, vendors, guests and more. To facilitate network access in our building, as a visitor to our campus, you may access our AT&T wifi visitor wireless service from your personal computer in our Business Building.

To get started using Visitor Wireless:

- Check your wireless network signal for the Visitor Wireless network named attwifi
- Connect to attwifi by configuring your wireless network settings to access attwifi.
- Open your Web browser to automatically launch the AT&T Wi-Fi web screen.

- Once you have completed the above and opened your web browser window, choose the “Get connected” button.
• Once you are connected the following box will appear.

![AT&T Visitor Wireless Connection Box]

• You are now connected to AT&T Visitor Wireless.
